

Mohamed Ali Trabelsi

FULLSTACK ENGINEER

Tunis, Tunisia · +216 28 751 504 · trabelsi.mohamedali@esprit.tn
linkedin.com/in/mohamedalitabelsi · github.com/MohamedAliTrabelsiSE

PROFILE

Fullstack engineer on production web, mobile, and APIs. UI as a system (tokens, composition, states). Backend as gateway, IAM, services, queues, then data. LLMs sit on the queue as workers — auth at the edge, timeouts, fallbacks. Delivery is CI: PR checks, image, recette, then prod.

EXPERIENCE

Fullstack / Applied AI Engineer — Early-stage startup

2025 – present

Tunis · Remote

- First release for clients already waiting: mobile client, NestJS microservices, one API gateway in front of internal services.
- IAM as its own context. Jobs, notifications, and LLM calls on RabbitMQ so the user never waits on a model.
- MongoDB behind repository adapters. Docker + Caddy — recette before prod, secrets out of git.

Fullstack Engineer — Tutoring platform (web, mobile, API)

2025 – 2026

Tunis · Remote

- React / TypeScript design system for coordinators, tutors, and students — empty, error, and success states included.
- NestJS API on PostgreSQL with Firebase identity, matching, sessions, and RBAC.
- AI as a worker: session recording → speech-to-text → LLM draft report, then human review.
- GitHub Actions on PR, Playwright on recette/dev, Docker image, gated promote to prod.

Full Stack Developer Intern — NAXXUM GROUP

Jun 2025 – Aug 2025

Tunis, Tunisia

- Second internship: scaled the e-learning platform — Express APIs, React modules, MongoDB under higher concurrent load.

Full Stack Developer Intern — NAXXUM GROUP

Jul 2024 – Aug 2024

Tunis, Tunisia

- First version of an AI-powered e-learning platform: Node.js / Express, React, MongoDB for progress and scheduling.

SELECTED WORK

Applied AI platform

NestJS · RabbitMQ · MongoDB · Docker · Mobile

Startup in development. Gateway, dedicated IAM, LLM behind the queue.

Tutoring platform

React · NestJS · PostgreSQL · Playwright · Actions

Design system + recette→prod pipeline. STT/LLM session reports.

Pawlink

Flutter · Java · API Gateway · IAM

Flutter client on Java microservices — gateway and IAM first.

PrimeProf · GainUp

Flutter / SwiftUI · NestJS · LLAMA / Gemini / Mistral

AI tutoring match and iOS fitness coach — models behind the API, not as the product.

SKILLS

Interface — TypeScript, React, Flutter, SwiftUI, design systems, motion

Platform — NestJS, Node.js, Java, REST, API gateway, IAM, RabbitMQ

Data — PostgreSQL, MongoDB, MySQL, Firebase, repository / migrations

Delivery — Docker, GitHub Actions, Playwright, recette → prod, Git, Agile

EDUCATION

ESPRIT — Engineering Degree in Software Engineering
Sep 2023 – present · Tunis

FST — Bachelor Degree in Computer Science
Sep 2020 – Jun 2023 · Tunis
