Tunis, Tunisia · Open to relocation across Europe · Open to international remote opportunities

PROFILE

Full-Stack Software Engineer specializing in TypeScript, NestJS and React Native, with hands-on experience building web and mobile applications, REST APIs and scalable backend services. Experienced with PostgreSQL, MongoDB, RabbitMQ, microservices, CI/CD and cloud deployment. Built cross-platform applications featuring real-time functionality, AI/LLM integrations and third-party services. Comfortable working across the product lifecycle, from backend architecture and API development to mobile implementation and deployment.

PROFESSIONAL EXPERIENCE

Full Stack Engineer, IT Strategix 09/2024 – Present

- Designed and developed backend services and REST APIs using NestJS and TypeScript for web and mobile application modules.
- Built full-stack features across React Native applications and backend services, integrating PostgreSQL and MongoDB data stores.
- Improved API and application performance, reducing response times by **35%**.
- Contributed to application architecture, testing, CI/CD and production deployment across multiple projects.
- Worked with cross-functional teams to translate business requirements into production-ready technical features.

Technologies: NestJS, TypeScript, React Native, Expo, PostgreSQL, MongoDB, Python, REST APIs, Git, CI/CD

Full Stack Developer Intern, NAXXUM GROUP 06/2025 – 07/2025

Tunis, Tunisia

- Optimized an educational platform using Node.js, Express, React and MongoDB.
- Enhanced recommendation features through AI-powered suggestions.
- Improved frontend performance and backend scalability.
- Contributed to improving user experience and platform responsiveness.

Technologies: Node.js, Express.js, React.js, MongoDB, JavaScript, Full Stack development, recommendation systems

Full Stack Developer Intern, NAXXUM GROUP 07/2024 – 08/2024

Tunis, Tunisia

- Built and maintained features for an online teaching platform.
- Developed responsive interfaces and backend services.
- Implemented real-time student monitoring functionality.
- Strengthened application reliability through scalable feature development.

Technologies: React.js, Node.js, Express.js, MongoDB, REST APIs, real-time applications

End-of-Studies Internship, SIGA 02/2023 – 06/2023

Tunis, Tunisia

- Designed and developed a task-tracking web application using Spring Boot, Angular and PostgreSQL.
- Built REST APIs and user management modules that improved internal coordination.

Technologies: Java, Spring Boot, Angular, PostgreSQL, REST APIs, Full Stack development

EDUCATION

Engineering Degree in Software Engineering, ESPRIT 2023 – 2026

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript, Java

Frameworks: NestJS, React, Angular, Spring Boot, React Native, Expo

AI / ML: Generative AI, LLMs, RAG, Prompt Engineering, AI solution integration

Databases: PostgreSQL, MongoDB, Supabase

Tools & Backend: Git, Docker, Firebase, RabbitMQ

DevOps & Cloud: CI/CD, DigitalOcean, GitHub Actions, Vercel, Expo EAS, deployment and infrastructure

Architecture: Microservices, REST APIs, real-time applications

PROJECTS

Smart delivery mobile app with AI assistant

Built a cross-platform logistics SaaS on a microservices architecture, supporting three roles within a single codebase, real-time delivery tracking and QR-code delivery. Integrated a voice assistant in Tunisian dialect (Darija). Deployed the application and its services with DigitalOcean and Expo EAS .

Stack: *NestJS, React Native, RabbitMQ, Supabase, MongoDB, Google Maps, STT, Gemini, OpenAI TTS, DigitalOcean, Expo (Development Builds, EAS Build), iOS & Android*

AI-powered education platform

Built a mobile education platform using Expo, NestJS and PostgreSQL. Integrated LLaMA to personalize tutoring and automatically match students with suitable teachers based on their needs.

Stack: *Expo, React Native, NestJS, PostgreSQL, LLaMA, TypeScript*

AI-powered fitness coaching app

Built a mobile fitness coaching app for beginners. Integrated Gemini and Mistral AI to generate customized training programs based on user goals.

Stack: *Swift, NestJS, MongoDB, Gemini, Mistral AI*

Travel & social activity platform

Designed and built a full-stack platform enabling travelers to organize trips, share activities, find travel companions and connect with other users based on destinations and interests.

Stack: *Angular, NestJS, PostgreSQL, TypeScript, REST API*
